

Beavers Space Activity Badge

Get ready to explore the stars, planets and beyond. Got your space suit on? Good, Let's go...

How to earn your badge:

1. Point out some of the things you can see in the night sky.

It could be stars, the moon or planets.

2. Point out and name at least one constellation you can see.

3. Name the eight planets in our solar system and draw or make a model of one of the planets.

You could use papier-mache to make your model. Or this could be your biscuits.

4. Find out about a space mission, an astronaut or a planet in our solar system.

This could be the recent mars mission.
